## Multiple Victimization of Children: Conceptual, Developmental, Research, and Treatment Issues (Hardback)

By B. B. Robbie Rossman, Mindy S. Rosenberg

Taylor & Francis Inc, United States, 1998. Hardback. Condition: New. Language: English. Brand new Book. Mental health professionals who work with abused and neglected children have long recognized that their clients do not necessarily experience only one form of maltreatment; however, until now there was no single source for researchers and clinicians to refer to about the effects of multiple victimization on children's development. Multiple Victimization of Children: Conceptual, Developmental, Research, and Treatment Issues fills the gap in the literature by bringing together theorists, researchers, and clinicians to present current theoretical models and address research and clinical issues for multiply victimized children and adolescents, with a special focus on the impact of victimization in major domains of development. As the only book to focus specifically on children who experience the co-occurrence of different types of maltreatment, Multiple Victimization of Children ties together developmental and trauma research of the multiple victimization of children and youth and contributes to the thrust to consider maltreatment from a developmental systems perspective. You'll also see how treatment demands differ for those who experience multiple versus single forms of maltreatment. Other things you learn about include: three different conceptual models (risk and resiliency, stress and coping, trauma and...
